

	Rating
Rating Formula for Eating Disorders:	
Self-induced weight loss to less than 80 percent of expected minimum weight, with incapacitating episodes of at least six weeks total duration per year, and requiring hospitalization more than twice a year for parenteral nutrition or tube feeding	100
Self-induced weight loss to less than 85 percent of expected minimum weight with incapacitating episodes of six or more weeks total duration per year	60
Self-induced weight loss to less than 85 percent of expected minimum weight with incapacitating episodes of more than two but less than six weeks total duration per year	30
Binge eating followed by self-induced vomiting or other measures to prevent weight gain, or resistance to weight gain even when below expected minimum weight, with diagnosis of an eating disorder and incapacitating episodes of up to two weeks total duration per year	10
Binge eating followed by self-induced vomiting or other measures to prevent weight gain, or resistance to weight gain even when below expected minimum weight, with diagnosis of an eating disorder but without incapacitating episodes	0

NOTE: An incapacitating episode is a period during which bed rest and treatment by a physician are required.

(Authority: 38 U.S.C. 1155)

DENTAL AND ORAL CONDITIONS

§ 4.149 [Reserved]

§ 4.150 Schedule of ratings—dental and oral conditions.

	Rating		Rating
9900 Maxilla or mandible, chronic osteomyelitis or osteoradionecrosis of:		9907 Ramus, loss of less than one-half the substance of, not involving loss of continuity:	
Rate as osteomyelitis, chronic under diagnostic code 5000.		Bilateral	20
9901 Mandible, loss of, complete, between angles	100	Unilateral	10
9902 Mandible, loss of approximately one-half:		9908 Condylod process, loss of, one or both sides	30
Involving temporomandibular articulation	50	9909 Coronoid process, loss of:	
Not involving temporomandibular articulation	30	Bilateral	20
9903 Mandible, nonunion of:		Unilateral	10
Severe	30	9911 Hard palate, loss of half or more:	
Moderate	10	Not replaceable by prosthesis	30
NOTE—Dependent upon degree of motion and relative loss of masticatory function.		Replaceable by prosthesis	10
9904 Mandible, malunion of:		9912 Hard palate, loss of less than half of:	
Severe displacement	20	Not replaceable by prosthesis	20
Moderate displacement	10	Replaceable by prosthesis	0
Slight displacement	0	9913 Teeth, loss of, due to loss of substance of body of maxilla or mandible without loss of continuity:	
NOTE—Dependent upon degree of motion and relative loss of masticatory function.		Where the lost masticatory surface cannot be restored by suitable prosthesis:	
9905 Temporomandibular articulation, limited motion of:		Loss of all teeth	40
Inter-incisal range:		Loss of all upper teeth	30
0 to 10 mm	40	Loss of all lower teeth	30
11 to 20 mm	30	All upper and lower posterior teeth missing	20
21 to 30 mm	20	All upper and lower anterior teeth missing	20
31 to 40 mm	10	All upper anterior teeth missing	10
Range of lateral excursion:		All lower anterior teeth missing	10
0 to 4 mm	10	All upper and lower teeth on one side missing	10
NOTE—Ratings for limited inter-incisal movement shall not be combined with ratings for limited lateral excursion.		Where the loss of masticatory surface can be restored by suitable prosthesis	0
9906 Ramus, loss of whole or part of:		NOTE—These ratings apply only to bone loss through trauma or disease such as osteomyelitis, and not to the loss of the alveolar process as a result of periodontal disease, since such loss is not considered disabling.	
Involving loss of temporomandibular articulation		9914 Maxilla, loss of more than half:	
Bilateral	50	Not replaceable by prosthesis	100
Unilateral	30	Replaceable by prosthesis	50
Not involving loss of temporomandibular articulation		9915 Maxilla, loss of half or less:	
Bilateral	30	Loss of 25 to 50 percent:	
Unilateral	20	Not replaceable by prosthesis	40
		Replaceable by prosthesis	30
		Loss of less than 25 percent:	
		Not replaceable by prosthesis	20
		Replaceable by prosthesis	0
		9916 Maxilla, malunion or nonunion of:
